

STRONG

Patented design meets or exceeds the strength of a standard wood crate. Light-Duty, Standard-Duty and Heavy-Duty rated options offered.

ECO-FRIENDLY

Reusable and 100% Recyclable at end-of-life cycle offers cash-in-hand rather than added expense from disposal fees. Reduction in carbon footprint.

SAVES SPACE

Collapsible, self-contained kit allows for easy storage freeing up to 75% more space VS prefabricated wood crates. The kitted dimensions are 5.5 - 6" tall when knocked down and approx. 11 - 12" on a pallet.

INTERNATIONALLY ACCEPTED

ISPM 15 compliant. *Optional Wood Pallets are Heat-Treated & Stamped.

CUSTOMIZABLE

ECORRCrates[®] are customizable. 12 inches or 12 Feet –the modular design can adapt. Custom printing, labels, and branding are available to order.

LIGHT

Approx. 40% - 50% lighter than wood reduces shipping costs –especially when shipping air freight.

SAFE

Lighter weight offers easier handling on the shop floor reducing injury claims.

FAST

Prefabricated "Quick Ship" Crates improve production output and reduce labor costs. No assembly tools required.
